TINEKE TRIGGS INTERIORS | TINEKE TRIGGS

ABOVE In the corner of the primary bedroom, a whimsical portrait by Jonas Peterson played with the "Les Ondes de Jade" drapery fabric from Misia Paris. Triggs selected a sculptural chair with a solid brass backrest and a felted wool skirt to pair with a contemporary writing desk. The crowning glory—Caroline Lizarraga painted the ceiling teal with a gold leaf necklace motif.

LEFT Tineke Triggs' viridian-toned primary bedroom showcased an upholstered bed from Una Malan. Susan Lind Chastain fabricated the bedding utilizing Romo Fabrics. Triggs installed a leather-leafed hand-sculpted plaster wall covering for an accent wall to echo the palm trees outside. She designed the curved nightstands using reeded oak faces and Arabesco Marble tops, illuminating them with white glass pendants.
