HANDWOVEN
TEXTURES

WOVEN-TO-SIZE GRASSWEAVE

INTERBRAID

Intricately hand-woven ramie braids in pale grey and golden wheat delicately rise above a finely woven field. The unique horizontal pattern has a gentle rhythm which lends a natural restfulness and comfort to a room.

The natural world – where beauty and contrast exist right at the **surface**. Smooth glossy rocks sculpted by rushing tides and rough-hewn bark pitted by spirited winds – varied **textures** held in natural harmony.

As in nature, texture provides interest and **balance** to an interior space. Our new Woven-to-Size windowcovering designs include delicate braids, inlaid **fibers** and patterned weaves; organic elements that gently add visual depth, attracting the eye and setting a mood of

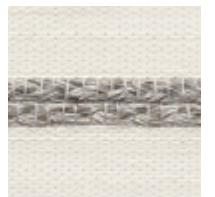

restful sanctuary.

LE1906 Blonde

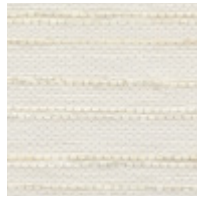

LE1960 Heather shown

TARTAN

Artisans masterfully guide shuttles wound with handspun ramie, in variegated thicknesses, through a composition of colored threads to achieve this haberdashery-inspired tartan pattern. The occasional appearance of hand-tied knots enhances the design's tactile richness and approachability.

WOVEN-TO-SIZE POPYRUSWEAVE®

TRANQUILITY

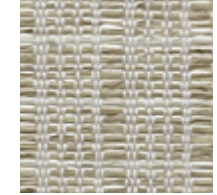

Reminiscent of Japanese screens, this open framework of line and space is created using two different colored pulp weft fibers in combination with stylized warp threading. The artistry of the weave and color selection reflects an understated, modern sensibility.

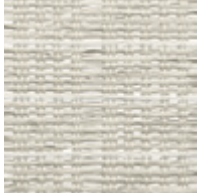

PE605-03 Cozy White

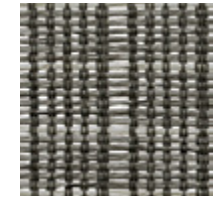

PE605-09 Quiet Beige

PE605-30 Easy Green

PE605-36 Passive Grey

PE605-60 Cool Grey

MESA

Inspired by Southwestern weaving traditions, palm and ramie fibers in modern earth-tones mingle with hand-placed water hyacinth strips for textural dimension. This tapestry-like design adds luxurious layers of warmth and artistic beauty to an interior.
