

LOW VOLTAGE TRANSFORMER SPECIFICATIONS

Our selection of low voltage transformers, distribution kits and enclosures provide everything needed for projects both large and small.

POWER SUPPLY & ENCLOSURE KIT SPECIFICATIONS

24V TRANSFORMER SPECIFICATIONS

NDR-240-24

NDR-480-24

		NDR-240-24	NDR-480-24
Output	DC Voltage	24V	24V
	Rated Current	10A	20A
Protection	Over Voltage	29 ~ 33V Shut Down o/p voltage, re-power to recover	
	Over Temperature	Shut Down o/p voltage, recovers automatically after temperature goes down	
Environment	Working Temp*	-20°C to +70°C	-20°C to +70°C
	Working Humidity	20 to 90% RH non-condensing	

*Refer to de-rating curve

**Assembly required
